Mobile: 9636147272

Skills

- **Languages :** C++, Python, Java
- **Frameworks :** Open CV, Tensorflow, Flask, Django, FastAPI, Mysql
- **Tools & Platforms :** Git, GitHub, VS Code, Linux, OpenAI API, RAG Pipeline, NLP
- **Soft Skills:** Problem-Solving, Decision-Making, Perseverance, Adaptability, Optimistic

Projects

- **Campus Management System ([GitHub](#))** January – present
 - **Description:** Developed a Django-based campus management platform with AI-powered face recognition attendance using OpenCV, including student/faculty management, analytics dashboard, and automated absentee alerts.
 - **Skills Developed:** Developed skills in full-stack Django development, database design, and real-time face recognition using OpenCV.
- **Ivy League Opportunity Intelligence & Student Network([GitHub](#))** January – present
 - **Description:** Developed a Flask-based platform that scrapes Ivy League opportunities, uses NLP for personalized recommendations, and includes a ranking and student networking system.
 - **Skills Developed:** Built expertise in full-stack Flask development, web scraping, NLP-based classification, database management, and RESTful API design.
- **RAG-Based DSA Q&A System([GitHub](#))** January – March 2026
 - **Description:** Developed an automated Retrieval-Augmented Generation (RAG) system that answers Data Structures & Algorithms questions using vector search and GPT API integration.
 - **Skills Developed:** Developed an end-to-end RAG pipeline with document chunking, embedding-based retrieval, prompt engineering, and GPT-powered code generation using Python, LangChain, and FAISS/ChromaDB.
- **Mental-Health-Risk-Prediction-App ([GitHub](#))** July - December 2025
 - **Description:** Developed a Flask-based machine learning web application that predicts mental health risk using pre-trained scikit-learn models and a structured ML pipeline for real-time analysis.
 - **Skills Developed:** Machine learning deployment with Flask, data preprocessing, K-Means clustering, and fast model inference using scikit-learn and joblib.

Training

- **CSE Pathsala ([LINK](#))** June - July 2025
 - Completed 35+ hours of intensive live training in C programming at CSE Pathsala.
 - Gained hands-on experience in writing, testing, debugging, and optimizing C programs.
 - Successfully cleared the final assessment and submitted a project demonstrating practical implementation.

Certificates

- Privacy and Security in Online Social Media | [NPTEL](#) April 2025
- Data Structures and Algorithms | [Neo Colab](#) December 2024
- Participated in "Dark Code Derby" coding competition | [Capgemini's](#) April 2024

Extracurricular

- Actively participated in communication skills competitions, securing 2nd and 3rd positions and demonstrating strong verbal and presentation skills.
- Participated in inter-college competitive coding contests on platforms like HackerRank and CodeChef, solving algorithmic and data-structure-based problems.

Education

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering Since August 2023
- **Lohia Public School** Jhunjhunu, Rajasthan
Intermediate April 2021 - March 2022
- **Jeevani International School** Jhunjhunu, Rajasthan
Matriculation April 2019 - March 2020
