Email: ankityadav0018@gmail.com
Mobile: +91-9636147272

SKILLS

Languages:	Python, C++, JavaScript, C, Java
AI/ML:	Machine Learning, Deep Learning, NLP, Computer Vision, Generative AI
Web Technologies:	HTML5, CSS3, JavaScript, REST APIs, Responsive Web Design
Frameworks:	Node.js, FastAPI, OpenCV, Django, REST APIs, Tensorflow,Flutter
Tools & Platforms:	Git, GitHub, Google Play Console, Firebase Console, Supabase, MongoDB Atlas
Soft Skills:	Leadership, Adaptability, Problem Solving, Teamwork, Communication

INTERNSHIP

AI/ML Intern Remote Infosys	Feb' 2026 - Apr' 2026
- Built an AI chatbot using CNN (ResNet/MobileNet) for plant disease detection from leaf images and fine-tuned BERT for symptom-based text diagnosis on 50,000+ PlantVillage dataset images. - Developed end-to-end pipeline integrating dual-input (image + text) models with a treatment recommendation engine and deployed the system using Flask/Streamlit.	

PROJECTS

KaamKaaz — Hyperlocal Daily Wage Worker Platform GitHub Live	Jun' 2026
- Developed a cross-platform job marketplace for blue-collar workers with GPS-based job discovery, KYC verification, real-time chat, and role-based dashboards for workers, recruiters, and admins. - Integrated support for 10+ Indian languages, offline access, Emergency SOS functionality, skill badges, OTP/biometric authentication, and a dispute resolution workflow. - Published on Google Play Store with optimized release build using R8/ProGuard and Firebase Crashlytics for error tracking. Tech-Stack: Flutter, Node.js, MongoDB, Socket.io, Supabase, Firebase, Cloudinary	
Network Vulnerability Intercept System (NVIS) GitHub Live	May' 2026
- Engineered an AI-powered vulnerability detection system for network topologies using YOLOv8 and OpenCV to identify high-risk nodes and visualize cyber threats in real time. - Implemented graph analytics using NetworkX with centrality metrics, explainable risk scoring, and interactive dashboards featuring telemetry, heatmaps, and risk insights. - Architected scalable FastAPI backend APIs and a responsive React dashboard with PDF reporting, analytics visualizations, and intelligent node-level vulnerability assessment. Tech-Stack: FastAPI, React.js, YOLOv8, OpenCV, NetworkX, Python, Recharts, Uvicorn	
Campus Management System GitHub	Jan' 2026
- Designed a Django-based campus management system featuring AI-powered face recognition for automated attendance tracking, real-time webcam integration, and absentee alerts for students with attendance below 75%. - Integrated additional modules including food ordering, resource management, remedial class scheduling, and role-based user management for students, faculty, and administrators. - Optimized face encoding storage and matching using OpenCV and dlib with configurable tolerance thresholds and a manual attendance fallback mechanism. Tech Stack: Python, Django, OpenCV, face_recognition, dlib, SQLite.	

TRAINING

CSE Pathsala C Programming Training	Jun' 2025 - Jul' 2025
- Completed 35+ hours of live technical training in C Programming with a focus on program development, debugging, memory management, and code optimization. - Successfully cleared the final assessment, demonstrating proficiency in C programming concepts and software development fundamentals.	

CERTIFICATIONS

Python Full Stack & Cloud Computing - Coding Spoon Link	Jun' 2026
Oracle Data Platform Certified Associate - Oracle Link	May' 2026
Oracle Cloud Infrastructure Certified AI Associate - Oracle Link	May' 2026
Principles of Generative AI Certification - Infosys Link	Dec' 2025
Privacy and Security on Social Media - NEPTL Link	Apr' 2025

ACHIEVEMENTS

Solved 100+ algorithmic problems across coding platforms, demonstrating strong problem-solving skills in Data Structures & Algorithms.	May' 2026
Serving as a Core Member of Arena Club, actively contributing to event planning, coordination, and execution of technical and cultural activities on campus.	Nov' 2025
Attained 1st Runner-Up in the "Hack and Hunt" College Hackathon, earning cash prizes and certifications.	May' 2025

EDUCATION

LovelyProfessional University	2023 - Ongoing
Bachelor of Technology (B.Tech) – Computer Science and Engineering: CGPA: 7.01	Phagwara, Punjab
Lohia Public School	2021 - 2022
Intermediate (Class XII): Percentage: 80 %	Jhunjhunu, Rajasthan
Jeevani International School	2019 - 2020
Matriculation (Class X): Percentage: 75 %	Jhunjhunu, Rajasthan
